Nishant Batra

Moncton, New Brunswick, Canada | nishantbatra360@gmail.com | linkedin.com/in/nishant-batra-360

Professional Summary

Consultant with 4+ years of enterprise experience specializing in ETL modernization, cloud migrations, and full-stack tool development using Azure, Snowflake, and modern web frameworks. Proven track record of delivering scalable data pipelines, developing robust analytics-ready models, and building highly performant internal client tools to drive business efficiency and automation.

Professional Experience

Deloitte — Consultant

Moncton, New Brunswick, Canada | Jan 2020 – Present

(Previously Solution Specialist, Solution Analyst, Solution Developer)

- **Data Engineering & Cloud Migration:** Architected and orchestrated scalable ETL pipelines utilizing Azure Data Factory (ADF) and Snowflake scripts, optimizing data ingestion and transformation to support robust, analytics-ready cloud platforms.
- **Full-Stack Tool Development:** Designed and built performant internal and client-facing web applications to streamline business workflows, developing dynamic frontends with React.js backed by responsive REST APIs using Node.js and FastAPI.
- **Business Intelligence (BI) Integration:** Leveraged Snowflake capabilities and SQL to structure and model raw data, ensuring seamless integration and data accuracy for downstream reporting and analytics.
- **Cross-Functional Collaboration:** Progressed rapidly through analytical and development roles, collaborating directly with client stakeholders to analyze technical requirements and deliver modernized, cloud-native solutions.

IO Solutions Contact Center — Jr. Program Analyst & Proactive Sales Representative

Montreal, Quebec, Canada | Nov 2020 – Apr 2022

- **Process Analysis:** Analyzed program requirements and operational workflows to identify technical improvements and support data-driven decision-making.
- **Technical Support:** Assisted in the development and maintenance of internal processes, collaborating with cross-functional teams to ensure smooth program execution and reporting.
- **Client Engagement & Targets:** Proactively engaged with clients to communicate technical product benefits, consistently exceeding operational targets while maintaining high customer satisfaction and CRM data accuracy.

Skills

- **Cloud & Databases:** Snowflake, Azure, SQL (MySQL, MSSQL), Power BI
- **Programming Languages:** Python, JavaScript, Java, C, C++, C#, PHP
- **Web Technologies:** ReactJS, NodeJS, FastAPI, HTML5, CSS, XML, Angular
- **Tools & IDEs:** Azure Data Factory (ADF), Android Studio, Eclipse, VS Code, IntelliJ IDEA

Education

Institut supérieur d'informatique ISI

Attestation of college studies, Programming and Web Technologies | Sept 2020 - Sept 2022

- **Key Focus:** Web Development, Programming Logic, Full-Stack Architecture.

Dyal Singh College

Bachelor's degree, Computer Programming/Programmer | 2016 - 2019

- **Key Focus:** Core Computer Science concepts, Java, C++, Database Management Systems.

Certifications & Honors
